

Jack Oil

Bardahl Jack Oil is a hydraulic jack oil reinforced with the 'Polar Attraction Formula'. This oil has been specially developed for hydraulic manual and electric jacks. Bardahl Jack Oil ensures minimal wear and maximum service life. Protects against corrosion and rusting.

This jack oil prevents rust in the cylinder, keeps the oil seals supple. The high-quality additive package offers optimal protection against foaming and aging.

Application

Bardahl Jack Oil is suitable for garage jacks, workshop presses, motor lifts, engine cranes, tail lifts, etc.

Also suitable for use as a refill oil for piston compressors. If it is a complete refresh: follow the factory specifications.
