

NAUTIC MOTOR OIL 10W30 Outboard

Bardahl NAUTIC Motor Oil 10W30 is a high-quality engine oil suitable for 4-stroke outboard motors that prescribe a 10W30. The very extensive package of additives, in combination with the latest base oil, ensures maximum protection against friction and wear under the most diverse conditions. Anti rust and anti-corrosion properties protect the engine components against damage by moisture through a unique anti-wear package based on molybthene / zinc technology. Finally, this engine oil contributes to a saving of fuel consumption and ensures minimal emissions.

Application

This engine oil meets the latest requirements for outboard engines, as laid down by the NMMA FC-W (National Marine Manufacturers Association).

Specifications

API - SJ | API - SL | NMMA - FC-W

According demands of:

- Bombardier
- Sea-Doo,
- Evinrude,
- Johnson
- Yamaha
- Suzuki
- Mercury,

Analysis data

Test			Results
SAE - Class	Method	Unit	MOTOR OIL 10W30 Outboard
Density at 15 °C	ASTM D4052	g/ml	0.876
Viscosity -25 °C	ASTM D5293	mPa.s	6200
Viscosity 40 °C	ASTM D445	mm ² /s	73.3
Viscosity 100 °C	ASTM D445	mm ² /s	11.4
Viscosity index	ASTM D2270		148
Flash point COC	ASTM D92	°C	218
Flow point		°C	-36
Total Base Number	ASTM D2896	mg KOH/g	7.0
