

Pre-Cleaner BIO

Bardahl Pre-Cleaner is intended for removing stains caused by exhaust smoke and fuel. Also for removing tar stains, oil residues, insects, in short for all kinds of dirt and stains on the paint or windows.

Bardahl Pre-Cleaner is a multifunctional powerful cleaner that effortlessly dissolves all kinds of dirt from cars, motorcycles, boats, etc. It is ideal for quickly removing dirt residues. It soaks flies and insects loose from paintwork, chrome and glass. This product is also a great alternative to **Bardahl Car Shampoo**. The cleaning is deep and the car is really clean. Ideal if, for example, you want to put the car in the laundry. This product is also an effective cleaner for alloys, steel rims and the engine compartment.

Bardahl Pre-Cleaner can also be used to spray heavily contaminated parts of a car before the car is washed or driven through the car wash. With the hand pump of the vial, the product can also reach hard-to-reach places. Do not use the product on parts that are still hot.

Manual

Inject the parts to be treated and leave the product on for about 3 minutes. Then drive through the car wash or wash the car with a brush or sponge. With strong contamination, it is recommended to pre-treat contaminated places with a brush.

You can also use this product as a Car Shampoo. Then put a splash in a bucket and your car, engine, boat will be thoroughly cleaned.

This product is safe for chrome, lacquer and aluminum.
